## STRIKES IN THREE CITIES

**Boston Labor Troubles Ceasing**

**Great Strike Impending in Fall River**

**St. Louis Painters Went Out Today.**

BOSTON, March 15.—According to the advice given them by Governor Crane, and action taken by the various labor organizations last night, all men involved in the sympathetic strike, with the exception of the freight handlers, freight clerks and lumber teamsters and handlers, returned to work this morning. Altogether not over 2,500 men of nearly 20,000 men who were on strike Thursday will be out today.  
During the day many of the freight handlers returned to work, and business along the water front is more active than at any time since the strike began.

**Textile Strike.**

ST. LOUIS, Mo., March 15.—Every union painter, decorator and glazier in St. Louis went on strike this morning, in an effort to enforce the painters' demand for an increase in pay from \$3.00 to \$3.50 for eight hours work. Two thousand men are involved.

**The Italian Strike.**  
Rome, March 15.—Replying to criticisms during the debate in the Chamber of Deputies to lay on the policy of the government, Signor Giolitti, Minister of the Interior, made a speech, in which he insisted that many of the recent strikes were part of a general social movement of all classes of the proletariat to secure better conditions of life. This is a justifiable inspiration, said the speaker, and since the demands are not political, the movement can only become dangerous of the government tries to suppress it by force. The duty of the government is to be impartial, and to respect the rights of strike propaganda so long as there is no incitement to violence. A great result will be achieved, concluded Signor Giolitti, when the proletariat ceases to regard the government as its enemy.

## PORTLAND PRIMARIES WILL POLL IMMENSE VOTE

**Senator Joseph Simon Battling for His Re-election.**

**Special Telegrams to The Journal This Afternoon Indicate He Will Win.**

(Special to the Journal.)  
PORTLAND, March 15.—There are being held today the quietest primaries in the history of Portland. There are no disturbances, except a row in one precinct. A heavy vote is polling. Indications favor the election of the regular Republican (Simon) ticket.  
JOURNAL.

This is the first election being held under the Lockwood law passed by the last legislature, one of the reform measures enacted by the Citizens' or Mitchell faction.

(Another Special to the Journal.)  
PORTLAND, March 15.—Portland is polling one of the heaviest primary votes in the history of the city. Every one who registered is apparently making use of the opportunity to give expression of their desires in regard to whether Simon or Harvey Scott shall be our next nominee for United States senator. At this time it is impossible to tell the result, but a careful canvass of the city wards shows a small democratic vote and great enthusiasm for Simon.

For some time it has been a source of wonderment to those interested why Glass & Prudhomme bid \$179 for printing the official ballots, much less than the cost of the paper, and over \$300 less than the next lowest bid. During the afternoon the reason was apparently discovered, for in every precinct where there was doubt as to the vote the precinct ballots were mixed up with others in various parts of the city. In precinct 26 ballots from precinct 46 were mixed in. In 47 100 ballots from 51 were found, and so on all over the city. Several of the ballots were deposited before the mistake was discovered, and it is charged by the Simon men that this is another scheme of Glass, who is now legging for Scott. As the ballots are sealed and delivered by the printer the Simonites think it looks reasonable to suppose this was the reason for the very low rate charged for printing the ballots.

No serious disturbances have occurred up to 3 o'clock.

**Charge of Illegal Voting Dismissed.**  
The case against H. L. Beard, who was arrested at the primary, charged with illegal voting was, on motion of Deputy District Attorney McNary, dismissed. The public prosecutor declared that while his residence was in doubt, he discovered no intention to do wrong. He is an employee of the state reform school, and the complaint stated that he was not a resident of the precinct in which he was voting. As he has a room engaged at the Salem lodging house, however, and is an unmarried man, his residence was proven to be in this precinct, in which he voted.

Some consider this movement of the arrest is merely a stratagem to prevent votes being cast.

At the county election a considerable amount of trouble is anticipated in this line, as a close watch will be kept on every voter. In fact, this surveillance has already commenced.
